Internally we have created a powerful leadership team strong enough to manage the doubling of EOH. We also enhanced our shared services effectiveness allowing our operating units to focus on their people and customers.

In 2009 EOH demonstrated its ability to attract technology partners, blue chip customers and the best people in the industry.

## Events after balance sheet date

There have been no material transactions since the end of the year that warrant adjustment to, or notification in, the condensed consolidated financial results.

## Future plans

The local economic environment is showing signs of improvement with customers undertaking IT initiatives beyond the maintenance and support of their existing IT investment.

Being recognised as a major player in the technology, consulting and outsourcing space has enhanced our ability to deliver effective 'end to end' solutions, enabling EOH to offer its large clients a single source for a significant portion of their IT needs.

The EOH brand is now well established, we have a solid customer base of over 2 500 clients, a wide spread of offerings, a strong annuity base and a healthy balance sheet – EOH is in a strong position to grow even further. We aim to gain our future growth by expanding our existing product sets and service offerings as well as via strategic acquisitions. We believe we have the ability, the management, the track record and the resources to do this effectively.

## Transformation

EOH has 34,3% broad-based effective black ownership. Of the group's over 1 600 employees, 43,5% are black as is 60% of EOH's board of directors. EOH has an AA Black Economic Empowerment rating (Level 3 contributor) and has progressed its Enterprise Development initiative. EOH is committed to inclusive transformation involving all its people and stakeholders.
